

Did you know that EU  
has a project called  
CITI-SENSE?

In CITI-SENSE project,  
people like you can take  
part on monitoring the  
quality of life.

The project is also taking  
action in schools to measure  
the indoor air quality.

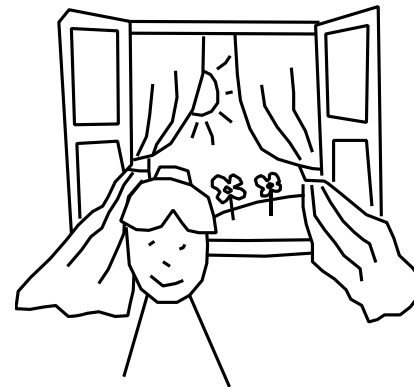

Each school measures  
at least temperature,  
air humidity, carbon  
dioxide and radon.

The results are shown  
in internet.

You can make a  
difference!

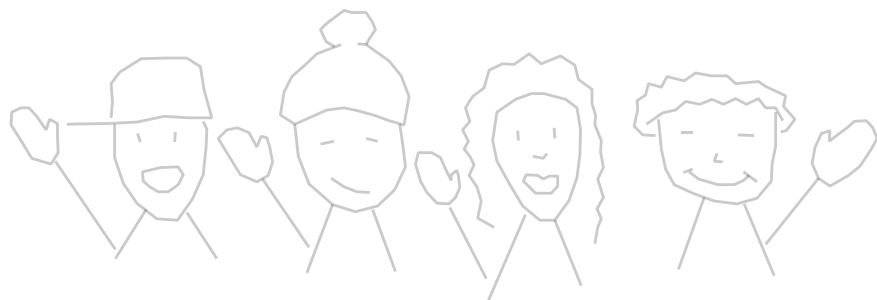

# What will you learn in this project?

Get to know the issues related to indoor school environment.

Learn about my schools indoor air quality.

Know how to improve my learning performance, health and well being in school.

Being involved to monitor the quality of school environment.

CITI-SENSE IN OUR SCHOOL

Development of sensor-based Citizens' Observatory  
Community for improving quality of life in cities

CITI-SENSE project Grant agreement n°: 308524
